

EUM-I Certification Workshop

25- 27 April 2017

Venue:
Taj West End,
25, Race Course Road, High Grounds,
Sapangi Rama Nagar,
Bengaluru 560001

Offered by:

FLAME TAO KNOWARE PRIVATE LTD.

The Existential Universe Mapper[©] (EUM) framework helps us understand individuals and organizations from a holistic perspective. Its origins can be traced to Clare Graves work on Levels of Existence. However, the underlying assumptions of the EUM framework mark a significant departure. *More on this, in the workshop...*

The **EUM-I**, now 17 years old, has been administered to over 3000 individuals across a range of age, gender, education and occupation profiles.

The **EUM-I** maps the individual both as a “whole”, and as a “part” of the larger context, offering insights on his/her membership in familial systems, institutions, organizations and the society at large. Yes, it is a map, not a measure of this or that... *More on this, in the workshop...*

The **EUM-I** enables an exploration and portrayal of an individual’s identity and role taking on a

wide canvas. Unlike some other tools that are deterministic and are based on an “a priori” construct of types of people, the EUM-I addresses people as vested with a range of potentials, allowing for their unfolding through a process of dynamic engagement with their context.

The **EUM – I** is that while it helps to understand propensities and likely behaviors linked to one’s identity processes, it also offers a window to the state of the individual - the extent and nature of equilibrium or stresses that the person is experiencing, and the desired direction.

EUM-I CERTIFICATION WORKSHOP 25-27 APRIL 2017

The **EUM-I** is based on the belief that despite similar patterns in the nature of issues faced, people are essentially unique. The tool examines the current location of an individual, direction/choices for the future as well as anticipated blocks and impediments. It sees the individual as dynamic and with an inherent capacity for change. Thus, the tool seeks to understand and individual as evolving and responsive to the context, in distinctive ways, rather than as a time – invariant entity whose patterns of existence are a 'given'. The workshop being offered specifically focuses on building skills in using the EUM-I.

Workshop Content:

1. The EUM Framework – assumptions and philosophical underpinnings;
2. In – depth understanding of the Universes – the essential building blocks of the EUM;
3. Understanding and working with the EUM-I tool and EUM-I report;
4. Applications for assessment, personal growth, coaching, and leadership development;
5. EUM-I – 'on the web', and other resources.

Who should attend:

This program is ideally suited for consultants, leaders, facilitators, executive / life coaches, human resource/ training professionals and behavioral scientists.

Those who have attended previous EUM-I workshops and would like to attend one more time (refresher) are welcome too.

LEAD FACULTY:

Ashok Malhotra, the author of the EUM Framework is an IIMA alumnus, is an Organization Consultant based out of Bengaluru.

Ashok articulated his EUM framework, after having explored the work of Clare Graves and that of Scott and Myers, in the late 1990s. The EUM---I and the EUM---O are tools he designed to map individuals and organizations respectively soon after. People he has trained have extensively used these tools in the last decade.

He is also one of the Founder members of Sumedhas academy for Human Context and a Director on the Board of many Indian companies.

Ashok is a researcher at heart, a gifted teacher and communicator, a past practitioner of Human Resource Management, an insightful observer of human processes, and a consultant who facilitates organic evolution of organizations.

He is the author of the book "The Child Man" (Routledge), and many papers of academic and general interest. More recently, he has been actively exploring and has written extensively on 'what is quintessentially Indian'.

Ashok Malhotra will be supported by a team of EUM practitioners who have worked with him through various stages of the development of the framework, the tools, and online deployment. They are:
